temperature control

# Dave Lennox *Signature*<sup>™</sup> Collection *SignatureStat*<sup>™</sup> Home Comfort Control

Innovation never felt so good.<sup>™</sup>

Precise humidity and temperature control in one easy-to-use device

7-day programmable with up to four time periods per day

Automatic changeover between heating and cooling for enhanced comfort and efficiency

ENERGY STAR<sup>®</sup>-qualified

When it comes to comfort, temperature and humidity are both important factors. Now, with the new *SignatureStat*<sup>™</sup> Home Comfort Control, you can control both with a single, easy-to-use device. *SignatureStat* precisely controls humidity, adding and removing moisture as necessary to assure your complete comfort.

## PRECISION HUMIDITY AND TEMPERATURE CONTROL IN ONE EASY-TO-USE DEVICE

The *SignatureStat* Home Comfort Control allows you to fine-tune your comfort according to your specific needs—all year. In the winter, when the air is dry, you can add humidity to make your home feel warmer, without increasing temperatures and energy costs. During summer months, you can program the *SignatureStat* control to lower humidity levels, so you stay cool and comfortable.

## SUPERIOR MOISTURE CONTROL

*SignatureStat*<sup>™</sup> Home Comfort Control removes up to 75 gallons of water per day when combined with select equipment.

### WARRANTY\*

5-year limited warranty.

*SignatureStat*<sup>™</sup> Home Comfort Control controls humidity, so you have more control over your comfort, health and home environment.

*SignatureStat* Home Comfort Control provides outstanding dehumidification by removing up to 75 gallons of water per day when combined with select equipment. Depending on the season, the RH (relative humidity) in your home should range between 25% and 55%. It works with your furnace, air conditioner and humidifier to maintain ideal conditions all year.

\*Applies to residential applications only.

## SIMPLE, ONE-POINT CONTROL FOR TOTAL HOME COMFORT

### Effects of Humidity

Depending on the season, the RH (relative humidity) in your home should range between 25% and 55%.

	Low Humidity (0-25% relative humidity)	High Humidity (55% relative humidity or higher)
<b>Comfort</b>	<ul style="list-style-type: none"> <li>◆ Makes you feel cooler than actual temperature</li> <li>◆ Makes you fatigue easily</li> </ul>	<ul style="list-style-type: none"> <li>◆ Air feels warm and damp</li> </ul>
<b>Health</b>	<ul style="list-style-type: none"> <li>◆ Dry skin/throat</li> <li>◆ Higher risk of bacterial and viral infections and respiratory ailments</li> <li>◆ Joint and muscle pain</li> <li>◆ Sore eyes</li> </ul>	<ul style="list-style-type: none"> <li>◆ Mold, mildew and dust mite growth, which can aggravate allergies and asthma</li> <li>◆ Can promote the release of chemicals from household materials (e.g., formaldehyde from carpets)</li> </ul>
<b>Home</b>	<ul style="list-style-type: none"> <li>◆ Warping and splitting of furniture and woodwork</li> </ul>	<ul style="list-style-type: none"> <li>◆ Condensation or frost on windows</li> </ul>

Feature	How It Works
<b>Large, Easy-To-Read Dot Matrix Screen</b>	Displays time, room temperatures and humidity levels.
<b>Menu Buttons</b>	Allow you to quickly advance through feature options.
<b>Backlit Display</b>	Large, easy-to-read panel illuminates with a touch of a button for easy viewing, day or night.
<b>System Status Icons</b>	Show when your system is running.
<b>Fan Control</b>	Allows you to select continuous, automatic or intermittent operation.
<b>Auto Changeover</b>	Automatically alternates between heating and cooling during changing weather for enhanced comfort and efficiency.
<b>Smooth Temperature Transition</b>	Gradually changes room temperature to next program period for increased comfort.
<b>Programming</b>	Allows you to easily set, customize, review or change your typical week's schedule, two or four times per day to save energy and money.
<b>Permanent Program Memory</b>	Maintains program in the event of a power loss, indefinitely. No battery required.
<b>Copy Feature</b>	Saves programming steps by automatically copying programs to other days of the week.
<b>Hold Feature</b>	Lets you temporarily change the temperature, without changing the programs, using permanent, temporary or vacation time frames.
<b>Indoor Air Quality Monitor</b>	Provides useful reminder for proper maintenance of indoor air quality products for improved comfort.
<b>Service Monitor*</b>	Indicates when your cooling system is not operating properly (with selected equipment).
<b>Security Feature</b>	Prevents unauthorized tampering of programs and settings.
<b>Dual-Fuel Capability**</b>	Increases the efficiency of dual-fuel systems by automatically alternating between gas and electric operation.
<b>Constant Power Supply</b>	Hard-wired to furnace power supply. No changing of alkaline batteries.
<b>Outdoor Sensor</b>	Allows for easy viewing of outdoor temperature.
<b>Condensation Prevention</b>	Automatically adjusts indoor humidity based on outdoor temperature, reducing condensation on windows.

\*Dave Lennox *Signature*™ Collection Heat Pump models only with the use of the Lennox® System Operations Monitor interface.

\*\*A dual-fuel system combines a heat pump and a furnace.

Partner of the Year

- 1 Air conditioner or heat pump
